SAN ANTONIO.

The Fourth of July Celebrated in Great Style.

If any man has reason to complain that he had to spend a dull day anywhere on the Fourth of July he had better go into a corner and jump on himself for having failed to go and take in the celebration at that thriving town of San Antonio. Fun and good cheer were running hand in hand there, and every visitor was made to feel at home.

Through the energy of Messrs. A. H. Hilton, E. Montoya, Max Montoya, J. L. Pino and many other public spirited citizens of that place the exercises were carried through without a hitch, and merriment reigned supreme throughout the day. Music, singing, refreshments, amusements and frolic were the order of the day, and everybody had a smile for everybody else. Visitors from Carthage, Valverde, San Pedro, Luis Lopez, Bosquecito and Socorro poured in from early morning and all said they had a good time. As the festivities were given under the San Antonio Military Band, lately organized, all came forward to bid the boys a token of encouragement and wishes for success.

The band boys worked hard to make the celebration a success and accomplished it with credit. The exercises took place on the river bottom bosque near the depot on the edge of a good sized lake. They opened with a few well chosen remarks by that prince of good fellows A. H. Hilton, who introduced the speaker of the day, Doctor Bacon. The Doctor acquitted himself finely receiving a well deserved ovation, being often applauded throughout his flow of oratory. The choir rendered some beautiful selections and the national airs, followed by the San Antonio orchestra of 12 pieces, quite a creditable organization for a small town. The lake especially was inviting for a row and several boats were gliding full of passengers all day long. Some exciting and funny incidents, not down on the programme but very amusing for the lookers-on happened several times when a boat full of skittish youths who could not keep still would capsize it and spill themselves in 3 feet of water to the amusement of the crowd on the shore. At night the crowd repaired to the hall where they tripped the light fantastic till the wee sma' hours.

SHOT HIS SON.

Eighteen Year Old Boy Mistaken for a Burglar by Judge Fountain.

Probate Judge A. J. Fountain of Mesilla Park, mistook his 18-year old son for a burglar Friday night and shot him, inflicting a dangerous wound. The boy was descending a ladder from the roof of the house when his father saw him. He commanded him to halt but the lad failed to obey, and Judge Fountain fired. The bullet struck him in the side, but it is believed the boy has a chance to recover. Judge Fountain is a son of the late Colonel A. J. Fountain, a famous attorney, who disappeared on the plains with his infant child six years ago. It is supposed they were murdered by cattle rustlers, although the mystery was never solved.—New Mexican.

Beware of Ointments Catarrh that Contains Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surface of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists, price 75c per bottle.

Demurrer of Michael Cooney to Complaint of Board of Education of Socorro.

In the District Court of the Fifth Judicial District of the Territory of New Mexico, within and for the County of Socorro.

The Board of Education of the City of Socorro, of the Territory of New Mexico,

vs. Michael Cooney. No. 4038.

Now comes the defendant, Michael Cooney, and demurs to complaint of plaintiff, and for ground of demurrer shows.

I. That there is a defect of party defendants.

II. Because it appears by the complaint of plaintiff that its right of action, if any exists, is against the City of Socorro and not this defendant.

III. Because the complaint of plaintiff does not state facts sufficient to constitute a cause of action.

IV. Because the plaintiff has attempted to plead a conclusion of law, wherein, it charges that this defendant wrongfully, fraudulently and in violation of his duty as mayor did the acts charged in the complaint of plaintiff, and has wholly failed to state facts showing any violation of his duty whatsoever.

V. Because the acts charged against the defendant are not charged to have been without the sanction or not by the express direction of the City of Socorro.

VI. Because it is shown by complaint of plaintiff that the acts complained of were done by the defendant as a public official, and the plaintiff has wholly failed to allege facts sufficient to charge this defendant with any personal liability.

VII. Because the plaintiff has shown by its complaint that no money other than one hundred dollars has come into the hands of this defendant growing out of the transactions alleged.

VIII. Because there is no privity between the plaintiff and this defendant, nor is he alleged to be charged with any duty towards the plaintiff.

IX. Because the plaintiff has failed to allege or show that it represents the public schools, situated upon the said land grant. (Signed) H. M. DOUGHERTY, Attorney for defendant, Socorro, New Mexico.

Vegetables and Cereals.

Outside of peas and beans, vegetables are scarce for this season of the year. This is probably due to the late overflow which ruined the truck gardens of the Lane Bros., Van Pelt, Jaramillo, and several others who had planted largely this year in vegetables. Wheat, oats and corn are doing nicely on all lands that were not in the flooded district. Alfalfa is also doing well; it is estimated that all crops of cereals and alfalfa will fall short fully 30 per cent on account of the overflows.

Notice.

Is hereby given that I have in my possession 28 goats, including spring kids and one Merino ram. The owner of said animals can recover them by paying for this notice and the expense keeping the same.

J. J. LEESON, President.

Secretary.

The above report of the Socorro Cemetery Association shows that they have been at work. The cemetery is now safely enclosed. The association will soon have it all plotted and laid off in avenues and will build a good road to it. They will also set out trees and in many ways beautify it.

We hope all who feel interested in this good work will assist the association. There is no better way of remembering those who have gone than by protecting and beautifying their last resting place.

The Foundation of Health.

Nourishment is the foundation of health—life—strength. Kodol Dyspepsia Cure is the one great medicine that enables the stomach and digestive organs to digest, assimilate and transform all foods into the kind of blood that nourishes the nerves and feeds the tissues. Kodol lays the foundation for health. Nature does the rest. Indigestion, dyspepsia, and all disorders of the stomach and digestive organs are cured by the use of Kodol. Sold by A. E. Howell.

The New Socorro Band.

Some twenty-five boys and young men, mostly permanent residents of Socorro have lately put their heads together and the result is a new organization for the betterment of our city. A reed and brass band has been made up of new and young blood which, the Chieftain hopes, may soon enliven our community with its melodious strains. Some ten years ago this town had one of the best bands in the territory, if not of the southwest, but through members leaving and others dropping out, it gradually went to seed. An effort to revive it was discussed among the boys and they went at it with enthusiasm. To persons living in this city, and music lovers generally, this means a great deal. If the boys will go to work earnestly and give us a good quality of music we warrant they will receive good support. A large city is not really a necessity for a first class musical organization. All it needs is an aggregation of earnest, active and conscientious workers. Perseverance in practice will do the rest, so, boys, attend strictly to business during rehearsals, begin a season of musical prosperity for yourselves and for Socorro.

Obituary.

Captain Henry A. Greene Commander of Co. G, 1st Infantry California Volunteers, answered the last roll call June 23, 1903, at Providence, Rhode Island, at the age of 76 years. Captain Greene recruited Company G from the mining camps in Nevada county during the latter part of July, 1861, and was mustered into service August 10, 1861, at Presidio Barracks, San Francisco, California, by Major Drum, and was made color company of the regiment.

I am the sole survivor of those who remained in New Mexico after we were discharged August 31, 1864.

Captain Greene was an able and a brave courteous officer; and am not ashamed to say, that tears filled my eyes when I received the sad intelligence of his death. He is gone, but not forgotten.

Peace to his dear old ashes.
